Professional Experience

SaaS Labs

Remote

STAFF ENGINEER

2024 – Present

- Owned and led development of ServiceAgent product end-to-end, including architecture, backend systems, authentication flows and shared platform modules.
- Designed and developed a centralized authentication package using JWT-based authentication with rotating CSRF token strategy for secure multi-service integrations.
- Built a reusable appointment scheduling npm package inspired by Cal.com architecture, designed to work across multiple products with isolated databases.
- Built reusable npm packages adopted across multiple services to standardize business logic and accelerate development.
- Led backend architecture discussions, production deployments and cross-team technical coordination for scalable TypeScript/NestJS services.
- Worked on scalable distributed backend systems using TypeScript, NestJS, Redis and event-driven design patterns.

Bajaj Finserv Health Limited

Pune, Maharashtra

BACKEND LEAD

June 2021 – 2024

- Led ABDM/ABHA/HPR/HFR integrations for DRx platform under National Health Authority initiatives.
- Designed scalable solutions for SCMD and SDMC workflows to support multi-clinic and multi-doctor operational models.
- Implemented scalable backend design patterns including Callback Pattern and Facade Pattern for reusable workflows.

Jungle Works

Chandigarh

SOFTWARE ENGINEER

June 2019 – June 2021

- Worked on Tookan, a large-scale delivery management platform used by global businesses for logistics and workforce management.
- Designed and developed ACL systems to provide granular access control across derived but independent business entities.
- Integrated backend services with POS systems, payment gateways, accounting software and eCommerce platforms.

Technical Skills

Languages & Backend: TypeScript, JavaScript, Node.js, NestJS, Express.js, REST APIs, System Design, Microservices

Frontend: React.js, HTML, CSS

Databases & Caching: MySQL, PostgreSQL, MongoDB, Redis

Cloud & Infrastructure: AWS, Google Cloud Platform, Linux, Nginx, PubSub

Projects

Scheduler System

TypeScript, MongoDB, Redis, System Design

SCALABLE MULTI-CALENDAR APPOINTMENT SCHEDULING SYSTEM WITH TIMEZONE-AWARE BOOKING SUPPORT.

UHI Hackathon - Smart EMR

TypeScript, MongoDB, Node.js

MODULAR SMART EMR PLATFORM BUILT DURING NHA HACKATHON

<https://github.com/Manik3112/uhi-hackathon>

Achievements

August 2022 **Winner - NHA UHI Hackathon**, Built an award-winning Smart EMR solution during the NHA UHI Hackathon.

National Health Authority

Education

DIT University

Dehradun, Uttarakhand

B.TECH IN COMPUTER SCIENCE ENGINEERING

2015 – 2019
